

HUGHES ADDRESSES ST. PAUL AUDIENCE

Assails Administration
for Its Prepared-
ness Policy

Nominee Criticises Embargo On
Arms to Mexico as "Fast and
Loose--No Policy"

READS LETTER FROM DURAND

ST. PAUL, Minn., Aug. 9.—Charles E. Hughes, speaking tonight in the auditorium here assailed the administration for its preparedness policy which he declares inadequate and asserted that he regarded "reasonable preparedness as a primary duty" and proposed, if elected, "to see that it is discharged to the credit of the American people."

"We are a spirited people," Mr. Hughes declared. "We are a people that can protect ourselves. We are not too proud to fight."

Much of the nominee's address was devoted to the Mexican situation and the calling of the national guard to service on the border. There had been warnings for two years that America should be prepared, Mr. Hughes said, and when the time came to put an army on the border to "do police service" there was presented "a spectacle showing inefficiency of the first magnitude."

The administration's embargo on arms to Mexico was criticised as "fast and loose--no policy."

"I think it is warranted by the facts," said he, "to say that any American soldier killed in Mexico is killed by American bullets that we have let go over the border."

The punitive expedition to Mexico, Mr. Hughes said, was only called punitive.

"The only punishment was inflicted on ourselves," he said. "We punished nobody else."

The nominee reiterated his views on the need for industrial co-operation and preparation for commercial competition by Europe after the war.

In his speech here Mr. Hughes said in part:

"In my speech in Detroit I referred to the fact that in the bureau of census a man of conspicuous expertise and fitness for the place had been retired and a man had been appointed in his place without qualification for that work."

"Now, my statement that E. Dana Durand was retired and his place given to a politician, has been challenged by Secretary Redfield. Secretary Redfield telegraphs me: 'Durand was not removed or retired but resigned voluntarily, unasked. I was glad to endorse him for present employment.'

"E. Dana Durand happens to be a professor in the University of Minnesota and I am going to read the letter which he has written me today in respect to the matter. He says in part:

"Inasmuch as your statement with regard to change in the directorship of the census has been challenged, I think that I should make this statement: My resignation as director was distinctly a forced resignation. I told Secretary Redfield that I would resign whenever he desired, but that I hoped I might be permitted to remain. He told me that the administration had decided to make a change—I believe to create a vacancy there, were the words used. The next I heard about the matter was the announcement in the press that the name of my successor had been sent to the senate."

"In that same speech I referred to the coast and geodetic survey and to the fact that in place of an imminent scientist there had been appointed a man whom I regarded as without proper qualifications. Exception also has been taken by the distinguished secretary to my statement with regard to that man. I am not in a position to state of my own knowledge the circumstance, of the retirement of the scientist who occupied that important technical place. My point is not so much the retirement of the man who went but the lack of special fitness in the man by whom he was succeeded. I am told that Mr. Jones who succeeded him went I believe from his stock farm to take charge of the bureau of fisheries, and after he had been there a couple of years he was put in charge of the coast and geodetic survey."

"In that speech I called attention to the manner in which the principle of our civil services had been disregarded and after going over a number of matters I referred to the special exemptions by executive order on the operation of the civil service rules, that is, appointments taken out of the civil service by executive order."

MAN DIES OF POISON WIFE IS RECOVERING

WOMAN STATES COUPLE DRANK
POISON BY MISTAKE

Authorities Find Man Dead and Woman Staggering About Room in Chicago Hotel—Police Suspect Suicide Pact.

Chicago, Aug. 9.—Morse Davis of Victoria, B. C., is dead and his wife Marie is slowly recovering from the effects of poison which they drank in their apartments at a Michigan avenue hotel this morning.

Davis was the inventor of a high explosive shell which it is said, he came to Chicago to sell. Whether the couple drank poison by mistake, as Mrs. Davis told the hotel physician or had entered into a suicide pact as the police suspect had not been determined by the authorities late tonight.

Davis was found lying dead across the bed by the house detective and Mrs. Davis was staggering about the room talking loudly and incoherently when the doors of the apartments were forced. An inquest will be held tomorrow. Mrs. Davis is being cared for at the hotel.

Search of the personal effects of the couple revealed nothing that would indicate suicide. Davis and his wife registered at the hotel on June 10th. Mr. Davis remained with his wife much of the time and appeared always cheerful. As little money was found among Mr. Davis' effects the police were inclined to doubt his reputed prosperity and their curiosity was aroused by a letter addressed to "Dear Father" and signed by "Morse E. Davis, Jr.", in which solicitude was expressed for the health of Aunt Maria. Telegrams were sent to Morse E. Davis, Jr., at St. Cloud, Minn., a son of the dead man; Rev. Oswald Davis, a brother at Lake Mahopac, N. Y., and to Canadian friends of the Davises.

According to the hotel physician, Mrs. Davis had recovered sufficiently tonight to make a connected statement of the poisoning.

She said Mr. Davis always carried salts and a poison he used in his tests of metals. Tuesday night they had eaten a salad for dinner which disagreed with them and Wednesday morning she was nauseated and awakened Mr. Davis to procure salts for her. He complained also of nausea and said he would take some salts after he had administered some to her. She said Mr. Davis had made a mistake and procured the poison instead of the salts.

Mrs. Davis was greatly concerned at the disappearance of \$3,000 in travelers checks which she had seen in his possession recently, the physician added.

War News Summarized

The vigorous offensive of the entente allies on the French, Galician and Italian fronts is still being rewarded with important successes. In Austria, Italians have recaptured Gorizia, twenty miles northwest of Trieste; in Galicia Russians have further carried out their endeavors toward the capture of Stanislaw, while French and British forces in the Somme region have won additional points of vantage.

The capture of Gorizia seemingly is as important a gain by the entente allies as yet has been attained in their present synchronous offensive, the city being the door through which Italians may now pass in an endeavor to capture Trieste, Austria's big seaport at the head of the Adriatic.

In the fall of Gorizia, Italians inflicted heavy casualties on its defenders, took more than 10,000 prisoners and captured considerable quantities of war requisites.

The Russian General, Letchitsky, has driven his wedge further into the Austro-German line near Stanislaw, capturing the eight miles east of that important city through which the railroads lead to Lemberg, the town of Tysmenitsa.

Northeast of Tysmenitsa, Russians have crossed the Koropice river and captured a number of important positions west of Velestoup and southward along the Niznoff-Monasteryka railroad making the Russian advance against Halicz reater. South of Tysmenitsa the Russian advance has reached Stokovohela.

Berlin admits the retirement of the Austro-Germans behind the Niznoff-Tysmenitsa-Otynia line, but says that heights held by Russians near Jablonitsa and Voroch and west of Tatarov were captured by the Germans and that Russian attacks in the Delat district were repulsed.

North of the Somme Australians have pushed back the Germans near Pozieres two hundred yards over a front of six hundred yards while French have driven Germans from a trench north of the Hem wood and recaptured it.

Heavy artillery activity is in progress in Thiaumont, Fleury, Vaux, Chaptre and Chenols.

Constantinople reports and Petrograd admits that Turks have recaptured Bitlis and Mush, in Turkish Armenia but Petrograd says obstinate fighting is still going on in this region.

Chicago, Aug. 9.—Giant crop losses in the United States and Canada sent the wheat market today nearly straight skyward. At one time, the ascent of prices amounted to 11 3/4 c a bushel. Trading closed in a whirl of excitement, showing net gains of 10 5/8 to 11 3/8 with the September option at 144 1/4 to 144 1/2 and with December at 148 to 148 3/8.

According to the United States government crop report which was the principal cause of today's excitement, the domestic yield of wheat for 1916 will be 358,000 bushels smaller than last year.

Blackrust spreading in Canada and indicating that the crop there would be cut down 136,000,000 bushels from the 1915 total made the situation still more acute as the United States and Canada have been furnishing six sevenths of the world's breadstuff supplies to the countries that in the face of war difficulties have still been able to import.

The biggest jump in prices today came right at the outset, exactly eight cents a bushel over night. Strenuous efforts to buy cleared the market at intervals almost completely bare of offerings, and forced the market higher until the May delivery had touched 153 1/2, a price just 13 1/2 cents under the topmost level on record in the violent fluctuations of the first year of the European war. It was estimated that export business today totalled 1,500,000 bushels for immediate shipment without including big purchases made of options on future deliveries.

ADVANCE DATE ONE DAY
Kansas City, Mo., August 9.—Kansas City's place in the coming speech making tour of Charles E. Hughes has been advanced one day, from Sept. 2 to Sept. 1st, according to information given out here today. The advance was made to allow the candidate to make a labor day address in St. Louis.

NEGRO CONFESSES TO MURDER
Dallas, Texas, Aug. 9.—Houston Wagner, a negro, repeated to a jury in district court here today his confession that he killed Miss Zoala Cramer last March in an attempt to rob her. The jury found Wagner guilty of murder and assessed the death penalty. Wagner was traced thru a cheap scarf pin caught in the dead woman's hair.

TO RAISE PRICE OF FLOUR
Portland, Ore., Aug. 9.—Millers announced here today that the price of flour in the northwest will be advanced tomorrow at least twenty cents a barrel and probably as high as 40 cents, as a result of the jump in wheat quotations. Last week a 40 cent advance in flour was recorded.

MAY APPEAL TO WILSON TO MEDIATE

Action Will Be Taken If
U. S. Board Fails to
Prevent Strike

WOULD BE LAST RESORT

Federal Mediators and Railroad
Managers Closeted in
Secret Session

WILL HEAR EMPLOYEES TODAY

NEW YORK, Aug. 9.—If the United States board of mediation and conciliation which was called in today fails to adjust differences between the railroads of the country and their 400,000 employees, President Wilson will be asked to use his personal influence to avert a general strike. This statement was made today by a representative of the railroad managers.

The appeal to the president would be taken only to "save the action from the trade paralysis that would follow such a strike."

Late tonight pacification efforts of the federal mediators were well under way. Six hours after the railway managers had served notice on the men that they would not withdraw their formal rejection of the workers' demands and had proposed federal mediation, the mediators and the managers were closeted in secret session.

It was understood that railroad representatives outlined their position. It was reported that the railways stood steadfastly for the main feature of their "contingent proposition" which conceded the shorter day but eliminated double compensation for different classes of services during the same work day.

Tomorrow the mediators will hear the railroad employees' side of the case. Then the board will hold alternate conferences with the opposing forces. When a basis for an understanding has been reached the railroads and men will be separately asked if they desire to place their case in the hands of the board for final adjudication. If the answer is in the affirmative, the contending forces will have to abide by the decision of the board.

It was pointed out by Mr. Hanger if the Brotherhoods refuse to accept the good offices of the mediators, the situation will stand just as it was before the mediators stepped in.

A. B. Garretson, official spokesman for the men, said that unless the railroads made satisfactory concessions they would refuse to bind themselves to federal mediation.

Brings Relief to Officials.
WASHINGTON, Aug. 9.—Word that the services of the federation mediation board has been accepted today in the threatened strike of 400,000 railway employees was received with relief by administration officials here. Realizing the serious situation which would confront the country should a strike occur it is understood the president is ready to exercise all the authority he possesses to bring the employers and employees into agreement.

The success of previous efforts of the mediation board in averting strikes on railroads has led Mr. Wilson to expect that there would be no walkout in the present instance.

WORK OUT PLAN TO ADJOURN
CONGRESS BY SEPTEMBER 1
WASHINGTON, Aug. 9.—A plan for adjournment of congress by Sept. 1st, was worked out by senate leaders today in a series of conferences occupying virtually the whole attention of senators of both parties and transforming the opening day of debate on the government ship purchase bill into a spiritless discussion among the members who remained in their places. As a result the Democratic steering committee submitted to Republican leaders a written proposal that no important legislation be taken up at this session except the shipping, revenue, employers liability and appropriation bills and conference reports.

Definite reply was deferred until the proposal can be submitted to a Republican conference tomorrow, but it seemed assured that the program suggested by the Democrats would be agreed to.

TRAPSHOOTERS MEET
PEORIA
Peoria, Ill., Aug. 9.—One hundred and fifty trapshooters competing in the Central Illinois Trapshooters league's monthly meeting came to Peoria today. Sixty participated in the initial events. Forty five took part in the 150 target singles and fifteen in the doubles target event.

BARTON DEFEATS MATHEWSON
Sioux City, Aug. 9.—John Barton of Sioux Falls, S. D., inter-state and South Dakota champion, went into the fourth round here today by defeating W. Mathewson, of Walt Hill, Neb., 6-1, 6-1.

PROBE STRIKE SITUATIONS
Ottawa, Ill., August 9.—Special meetings of the city councils of LaSalle and Oglesby were held tonight to investigate the cement strike situations. A conference was held by the city authorities, Adjutant General Dickson and Sheriff Davis at which it was decided not to bring the state troops back to the district at present.

TELEGRAPHIC BRIEFS

DUBUQUE, Iowa.—L. C. Reque, consul to Rotterdam under President Cleveland, is dead at his home in Decorah, Iowa.

LONDON.—"A French torpedo boat destroyer torpedoed an Austrian submarine Tuesday north of the Island of Corfu," says a despatch to the Exchange Telegraph company from Athens.

OTTAWA, Ill.—Two firemen were overcome and one hundred girls were driven from an adjoining factory, when a gasoline explosion wrecked Burns Brothers garage causing a loss of \$10,000.

JERSEY CITY, N. J.—Erling and Axel Larsen, Norwegians, were arrested here on suspicion of complicity in the Black Tom explosion and fire July 30th. Among papers found in possession of prisoners were drawings of a submarine and other data.

CHICAGO.—Thirty more Chicago saloonkeepers are to lose their licenses as the result of failure to comply with the Sunday closing law last Sunday. Mayor Thompson recently revoked licenses of more than a score of saloonkeepers.

OMAHA.—John M. Thurston, former senator from Nebraska, is dead here. He had been critically ill for four weeks, following a heart prostration and his death had been momentarily expected for several days.

WASHINGTON.—The federal public health service today asked state health authorities throughout the country to send representatives to a conference Aug. 17th to discuss means for preventing a further spread of infantile paralysis.

WHEELER AND WOODRUFF
WITHDRAW THEIR PETITIONS
Reduce Number of Republican Candidates in Field for Governorship Nomination to Three.

Springfield, Ill., Aug. 9.—The final day of withdrawals of petitions filed with Secretary of State Stevenson for a place on the primary ballot reduced the number of Republican candidates in the field for the governorship nomination to three. The two withdrawals were Sheriff John A. Wheeler of Sangamon county and Mayor Edward N. Woodruff of Peoria. The candidates remaining are Frank O. Lowden, Oregon; Frank L. Smith, Dwight, and Morton D. Hull, Chicago.

The list of withdrawals includes the petition of Frank R. Reid, Chicago, candidate for Republican nomination as secretary of state and Michael P. Ryan, Democrat, Chicago, for nomination for secretary of state.

During the day there were approximately fifty withdrawals, bringing the total up to 125, and leaving approximately 1300 candidates to be certified to county clerks. With but few exceptions practically all the withdrawals were from Chicago candidates. Among the number were:

Congress, second district, Mark B. O'Leary, Democrat; Third district, Harry F. Atwood, Republican; fourth district, George P. Latchford, Democrat; James M. Kelly, Democrat; sixth district, Arthur W. Fulton, Progressive; seventh district, William S. Swiney, Republican; Charles G. Hutchinson, Republican; eighth district, Elwood F. Royce, Republican, Danville.

Other withdrawals were among candidates for state senator and representatives and state board of equalization.

ST. LOUIS, Aug. 9.—Striking milk wagon drivers this afternoon notified drivers of grocery and bakery wagon drivers this afternoon notified milk from the dairies to be sold at retail.

Strikers concluded that grocers and bakers were getting milk and cream in such quantities for retail as to render the strike ineffective.

Pickets in some instances persuaded drivers to dump their loads into alleys.

Policemen appeared while this interference with milk distribution was in progress and forbade the strikers to congregate about wagons.

WILL NOT BE BOUND
BY PARTY PLATFORM
Houston, Texas, Aug. 9.—Democratic members of the Texas legislature which convenes next January will not be bound by the party platform to pass a joint resolution submitting to the electorate a constitutional amendment for state wide prohibition. The state Democratic convention in session here tonight adopted the majority report of the platform committee which failed to mention the question of submission.

U. S. WILL PUBLISH LAST LUSITANIA NOTE

POLK DECLINES TO DISCLOSE WHEN
DOCUMENT WILL BE GIVEN OUT

State Department's Intention to Publish Communication is Believed to Indicate its Acceptance.

Washington, Aug. 9.—The United States has asked for and received permission from Germany to publish as a formal document the last note in the Lusitania case which was submitted by Count Von Bernstorff nearly six months ago. The state department's intention to publish the communication is believed to indicate its acceptance.

Acting Secretary Polk declined today to disclose when the document would be given out.

The communication dated Feb. 16th deals only with the principles involved. It does not mention the amount of indemnity Germany is to pay or how or when the amount will be agreed upon. It simply "recognizes liability," promises to make reparation by the payment of indemnity, gives assurances for the future and declares that reprisals must not be directed at other than enemy subjects. The German government is reported as feeling, that, having signified its willingness to make reparation, the United States must make the next move toward securing it.

The communication when submitted was regarded as tentative and the United States refrained from accepting it because of the declaration by their central powers of their intention to treat as warships armed merchant ships of the entente allies. During the discussion of this declaration and the negotiations over the attacks upon the channel steamer Sussex and other vessels carrying American citizens the communication has lain in the state department unacted upon. Having secured further assurances regarding the conduct of submarine warfare the state department decided to await developments principally with the idea of determining how Germany's assurances would be observed. It has been indicated by officials of the department recently that it apparently being evident that Germany was living up to her promises the Lusitania note should be published. The Berlin foreign office offered no objection.

OUTLINES METHODS OF SERUM
TREATMENT FOR PARALYSIS
New York City Health Commissioner Gives Outline—Schools May Not Open Before November 13

New York, Aug. 9.—Methods of serum treatment in cases of infantile paralysis based on scientific principles and from which beneficial results have been obtained were outlined tonight by Dr. Haven Emerson, city health commissioner. One of these methods consists of using the fluid withdrawn by spinal puncture and re-injected subcutaneously or intramuscularly into the same patient. Another method is spinal injections of blood serum derived from persons who have recovered from the disease.

The first treatment is based on the assumption that the spinal fluid contains the virus of the disease which, when injected subcutaneously or intramuscularly will stimulate the production of anti-bodies which will aid in overcoming the infection.

The blood serum derived from convalescents said the commissioner, contains anti-bodies which also will aid in overcoming infection. The new high record of 57 deaths today resulted in a decision to postpone the opening date of the public schools set for Sept. 11th. Officials said tonight it might October 1st, before the schools were opened, and possibly November 1st.

ST. LOUIS, Aug. 9.—Striking milk wagon drivers this afternoon notified drivers of grocery and bakery wagon drivers this afternoon notified milk from the dairies to be sold at retail.

CLOUDBURST TAKES HEAVY TOLL OF LIFE

Death Total in W. Va.,
Cabin Creek and Coal
River Valleys Near 150

RECOVER ELEVEN BODIES

Gov. Hatfield Orders Two Companies of Militia to Flood Zone
With Tents and Supplies

HOUSES ARE SWEEPED AWAY

CHARLESTON, W. Va., Aug. 9.—A cloudburst swept the Cabin Creek and Coal River valleys today, spreading devastation thruout the district. Advances tonight were meagre owing to interrupted communication but various reports estimated the loss of life at from eleven to 150 persons.

The property damage was placed at not less than one million dollars.

Two companies of the second regiment, West Virginia national guard were ordered to the flood zone with tents and supplies by Governor H. D. Hatfield. Relief trains are being made up here and will depart within a few hours. Local officials of the Virginian Power Company asserted the loss of life would reach 150.

Eleven bodies so far have been recovered three at Cabin Creek Junction and eight at Dry Branch.

Scores of houses have been swept down the two streams. Late today a boy was seen on top of one of the houses. An effort to rescue him failed and he disappeared in the water.

Two passenger trains one of which is a Sunday school excursion train carrying 300 persons are marooned near St. Albans and efforts to reach them have failed.

Governor Hatfield hurriedly returned tonight from Huntington where he had gone to attend the Republican state convention and will take charge of the relief work. Looting had begun among the ruins in Cabin Creek early in the evening. The situation was constantly becoming more difficult.

A telephone message from Cabin Creek at 10:30 o'clock tonight from Howard C. Smith, chief of the special agents on duty in the stricken district, was to the effect that at the time the rescuers had been able to penetrate as far as Miami, six miles from the mouth of the creek.

Everything up to that point was in ruins and the situation was growing worse. The town of Acme was the scene of the worst destruction and loss of life. Other towns known to have been practically destroyed on this creek were Roney, Miami, Sharon, Dawes, Kayford and Eskdale. Seven families are known to be missing at Eskdale.

Information received at the office of the general superintendent of the Chesapeake and Ohio here tonight indicated that conditions on Coal River were little, if any better than those on Cabin Creek.

A report late tonight said the passengers on the excursion trains fled to the hills in safety when the water reached the floors of railroad coaches.

At Oakley seven persons were drowned in one house.

ANDRE GODIN KILLED
Paris, Aug. 9.—Andre Godin, Egyptologist and poet, was killed by an aerial torpedo as he was leaving a trench on the back French line. His unpublished papers are to be edited by his fiancée, Madame Berthe de Nyse, assisted by some of Godin's scholarly friends.

M. Godin was serving as a private.

Brookline, Mass., frequently referred to as the richest town in the United States and one where traditions of elegance and refinement are numberless is taking great pride in the fact that a Wellesley college graduate is a member of the police force. Brookline has nothing on Jacksonville for while local police women can not claim degrees from Wellesley, they have won recognition from institutions almost as honored. It will be remembered that the City Matron, the Anti-tuberculosis nurse and sanitary inspectors in Jacksonville, all women rank as police officers.

Mr. Bryan's Varying View of Hughes

W. J. Bryan has characterized Mr. Hughes' speech in Detroit as vile and unfair. He accuses Mr. Hughes as not being candid either in his attacks or his statements of his own position and declares that if other republican speakers follow the pace set by the presidential nominee that the campaign will not be characterized by the thoughtfulness and deliberation demanded at such a time. The great trouble with the Hughes speech from a Democratic standpoint was that it went home and the logic and the argument used were unanswerable.

Mr. Bryan's comment is especially interesting in view of the fact that he openly stated in a campaign several years ago that the speeches made by Mr. Hughes were the most effective heard in behalf of the Republican party, the most difficult to combat from a Democratic viewpoint.

Mr. Russel's Standard.

Andrew Russel, candidate for the Republican nomination for State Auditor believes that Illinois should have an accounting department. In several of the states such departments are maintained with excellent results and an accounting department would furnish the means for auditing the accounts of all officers immediately subsequent to expiration of their terms. The department would furnish the same kind of service to the several counties of the state. By application to the department the state accountants would be sent into any county and audit the books of the officers completing their terms whether retiring from office or having been re-elected. Instead of applications being made by the several counties for the audit, the law might be so framed that provision would be made for auditing the accounts in the different counties at stated intervals.

Another point Mr. Russel has made clear is that if nominated and

IDLE ENVY

I see the husky young man pass, and mutter to myself, "Alas! How much I envy him! I'm bent beneath my weight of years, the finish to my view appears, while he has strength and vim." But when I've pondered things a while I reconstruct my faded smile, and wear it on my face; I say, Youth has more grief than age, more worry, trouble, futile rage—I'd not be in his place. I sit beneath my fig and vine and sweet serenity is mine, naught can disturb my calm; extinguished are the fires that burned my heart in youth, my eyes are turned to Gilead, its balm. The smoothest girl in town may pass, the most resplendent, gorgeous lass, no rapture will she rouse, but that young man I envied late, will spend the night before her gate, and fill the air with vows. He'll lose his sleep and appetite, and silly verses he'll indite, on wedding bells intent; he'll fret and fume and rend his soul, and when she finds he's blown his roll, she'll wed another gent. Oh, youth is full of rage and pain, and only age is safe and sane, consoling and sublime; and so I sit beside my door, and moralize an hour or more and have the blame—dest time.

JACKSONVILLE AUTOISTS

DROVE UP PIKE'S PEAK

T. M. Tomlinson and Party Made Famous Ascent Monday—"No Trouble."

While country wide interest is felt in the spectacular cycle and automobile races as scheduled for the Pike's Peak Automobile highway local interest is given by the fact that Jacksonville auto tourists climbed the mountain Tuesday. Readers will easily guess that the tourists were none other than T. M. Tomlinson, Dr. B. W. Young and Edward Tomlinson and they made the great ascent in Mr. Tomlinson's Ford car. A characteristic telegram came from Mr. Tomlinson yesterday reading—"We climbed Pike's Peak yesterday in my Ford, no trouble."

Burial of Mrs. Peters

The remains of Mrs. George Peters, who passed away at her home in Merritt, arrived Wednesday afternoon and burial was made immediately after arrival of the 2:30 o'clock train in Young cemetery, southwest of Winchester. Mrs. Emma McLaughlin, sister of Mrs. Peters, was called to the bedside Sunday.

Mary Elizabeth Cowan was born in Glasgow, the daughter of Mr. and Mrs. Robert Cowan, and made Scott county her home until two years ago, when she removed with her husband to Ashland. Her mother preceded Mrs. Peters in death by five years.

The body was accompanied to Winchester by Mr. Peters and by other relatives of the deceased.

Party at Wallace Home

The seventh birthday of Leonore Wallace was the occasion Wednesday of a pleasant party at the rural home of Mr. and Mrs. Nathan Wallace, two miles east of Winchester. Games were enjoyed by eighteen little guests and the hours from 2:30 until 5 o'clock were spent in enjoyable manner for each. Dainty refreshments were served.

Paul Nelson of Chicago is making a vacation visit with his parents.

"Sweating" Confession Not Proper Evidence.

In a supreme court case rendered in Missouri the confession obtained by "sweating" a prisoner was deemed not admissible. The case is summed up in a West and Company Bulletin which indicates that the court allowed the defendant's appeal from a murder conviction sustaining his point that an error was committed in allowing an involuntary confession drawn from him after 12 hours of continuous sweating by the police officer who had him in charge to be admitted as evidence against him.

Judge Paris of the supreme court in passing on the case said:

"While confessedly it is a very human failing, superinduced doubtless by constant dealings with the hardened criminal classes, which induces police officers and detectives to follow the popular attitude and presume the guilt of an accused person rather than his innocence, which latter presumption the law enjoins upon the courts, nevertheless this popular presumption of guilt and the court-ruled and legal presumption of innocence cause trouble and misunderstandings in the administration of justice when they clash. This case proves the rule; for, while defendant may be guilty, there is such grave doubt of it, and the fact of guilt rests upon so thin a point, as to give us pause in so ruling, out of hand. His confession absent, he is, upon the other facts shown, as innocent as the unborn babe. * * *

"Abstractly, a wrong ruling as to a guilty person does not harm society, and but aids in doing justice upon him who deserves punishment; but such a ruling lives to be a precedent for the hurt and harm of the innocent, and so our duty is to write the law by which both the guilty and the innocent may be safely tried. A rule of law fit only to try the guilty is no better than lynch law."

"It results that for the error noted this case must be reversed and remanded for a new trial."

Trainmen Show Some Judgment

If the public had not sympathized already in a large degree with the 400,000 trainmen who are seeking to enforce certain demands from the railway managers, that kindly feeling would have been won yesterday. As the crucial day when a strike might be called came near the leaders of the union agreed to lay their differences before the federal board of mediation. This attitude indicates the sincerity of the belief of the men in the justice of their cause and also signifies their unwillingness to cause loss and inconvenience and actual suffering to the general public if this can be avoided.

The trainmen are insistent in their demands for an 8 hour day and time and a half for overtime and have amassed an array of facts in support of their contention. They have consented to arbitrate, they are ready to present their evidence to the mediation board and what they are now insisting on is speedy action by this board. The men are certainly entitled to prompt consideration of the whole case and if the hearing drags or it is made unduly expensive for the trainmen to produce their evidence, their position with the public will have been strengthened.

The trainmen deserve commendation at this time for the disposition shown to consider the interests of the public at large along with their own welfare.

MISS MARIA FAIRBANKS IN ALASKA

Not so very many years ago when the writer visited Alaska Skagway was a landing for gold seekers and they had all sorts of experiences. One company didn't understand the high tides of that region and landing at night deposited their belongings near the water and found everything afloat next morning. Now the place is a populous town with a daily paper, the Alaskan, and the issue of July 26th has the following to say regarding Miss Maria Fairbanks of this city:

"The Violette party, under the able supervision of Miss Fairbanks, of Jacksonville, Ill., arrived on the Sophia. The 'Violettes' are registered at the Pullen House. The following is a complete list:

Mr. and Mrs. J. J. Swafford, Miss Nellie Fortune, Mrs. Florence Firestone, Mrs. J. H. Berryman, Mrs. G. M. Harries, Miss Natalie Brother, Mrs. R. W. Mills, Mrs. K. C. Smithers, Miss S. M. Fairbank, Mrs. H. B. Blakelee.

City Commissioner W. F. Widmayer left for Chicago last night to spend several days attending to personal business.

Tuesday at Nichols Park, when the
relatives and friends of Mrs. Amanda
Watts of Woodson, assembled in an
all day picnic.

One of the events of the day was
the photographing of the oldest and
youngest person on the grounds, the
oldest being Samuel Ray, Ashland,
Ill., age 75 years, and Harold Smith,
Perry, Ill., age 1 year.

Sixty five guests participated in
the merry making, those present be-
ing, Mr. and Mrs. Wm. Frost, and
daughters, Helen and Elizabeth,
Winchester; Mr. and Mrs. M. L.
Watt and sons, Roy and Paul, Jack-

Vortman, Mr. and Mrs. E. R. Carter
and son, Mrs. Ella Lewis, Miss Lela
Switzer, F. P. Lindsey, John Lewis,
H. G. Lindsey, Charlie and Margaret
Putnam.

Mr. Emanuel Pires of North Main
street is enjoying a visit from her
daughter, Mrs. J. B. Freitas and
husband of Honolulu, Hawaii. Mr.
Freitas is one of the leading busi-
ness men of the metropolis of the
Hawaiian Islands and gives a glow-
ing account of conditions there at
present. The war has enhanced the
price of sugar which is the chief
product of the islands and fabulous
fortunes have been made there with-
in the past few years. Stocks in dif-
ferent companies have advanced at
an astonishing rate and persons
who were moderately well off some
years ago find themselves wealthy.
While all are strictly neutral they
are profiting by the conditions at
present.

Mr. Freitas says the LaFollette
bill has practically banished U. S.
steamship companies with vessels for
the Orient but the Matson company
has a line between Honolulu and
San Francisco and charge the fear-
ful price of \$130 for first class
round trip of six days. They ought
to make good money at that.

Mr. Freitas says they do not have
anything like the hot weather in
Honolulu that we experience here
they are less than twenty de-
grees north of the equator. Island
breezes blow much of the time and
the nights are generally cool and
good for rest and sleeping. He and
Mrs. Freitas expect to leave for
their island home the 17th of the
present month.

Mr. and Mrs. Norman Campbell
and a number of friends arrived in
the city yesterday from Merritt
in Mr. Campbell's McFarlane 6 car on

SOCIAL EVENTS

Sinclair Country Club
Entertained By Mrs. Hunter.

The ladies of the Sinclair Country Club were delightfully entertained Wednesday afternoon at the home of Mrs. Frank Hunter. A paper was read on the "Manufacture of Glass" by Mrs. Lester Hart, and Miss Eva Baxter presented a paper on "The Keokuck Dam." Music was furnished by Mrs. Charles Bealnear, Mrs. Jed Cox, Mrs. Lester Hart and Miss Eva Baxter. Miss Frances Kolp rendered a vocal solo which was much enjoyed. Mrs. Chester Hart was found to be the only member of the club who had not been absent during the past year. Mrs. John Hunter and daughter were guests of the club and during the afternoon delicious refreshments were served by the hostess.

Young People Enjoy Hay Ride.

Miss Nellie Green of Straws Crossing entertained a party of young people on a hay ride Wednesday evening. The party left the Green home about 7 o'clock and started for Indian Creek. Arriving there a bountiful supper consisting of fried chicken and all good things to eat was served. Those present were, Misses Grace and Veronica Davis, Verna Lebkuecher, Eloise King, Lillian Cleary, Bernice Doddworth, Nellie Green and Don Cowgur, Harry Samples, Arthur King, Robin Strawn and Crum Cleary.

ROADWAY IMPROVEMENT TO NICHOLS PARK PROGRESSING

All Grading Done In Preparation for the Oil.

The grading of the roadway which will connect Nichols park with the East street pavement has been completed and is ready for oiling. The rain which came Monday very materially simplified the work on this road, where the dust was very thick. It had been planned to scrape off the heaviest part of the dust and then procure the city's street flusher and thus have the roadway prepared for the application of the oil. But when the rain came, this part of the program was unnecessary and with the grading and dragging done the road is now in splendid condition for the application of the oil. This work will be done speedily and the road will then be open to traffic. As previously stated, the highway is to be oiled east from East street on Michigan avenue to Hardin avenue, thence south to the Vandalia road and east to the entrance of Nichols park.

Mrs. Albert Dorsey of Perry, Ill., was here yesterday to visit her sister, Mrs. J. W. Lane, who is at Passavant hospital. Mrs. Lane is improving in a gratifying manner.

Homer Ranson of the Point neighborhood was visiting at Passavant Hospital yesterday.

Mrs. Katie Smith of Meredosia was able to return to her home yesterday afternoon from Passavant hospital.

Loren Young of Roodhouse was in the city yesterday. He accompanied his wife to their home, she having been for the past few weeks a patient at Passavant hospital.

Bryan Waterfield was able to leave Passavant hospital yesterday for his home on R. F. D. No. 2.

Mrs. Lizzie Briscoe was a visitor at Passavant hospital yesterday from White Hall.

ROBERT BURNS, FAMOUS PEDESTRIAN REACHES JACKSONVILLE WEDNESDAY

Met By Boy Scout Delegation North of City—Holds Long Distance Record—Many Coming to Burlington Way Convention.

Robert Burns, world's champion walker, arrived in Jacksonville at 8 o'clock Wednesday evening and will remain here for the Burlington Way Good Roads association convention next week. He was met by a company of Boy Scouts several miles north of town who accompanied him to the Y. M. C. A., where he will be entertained.

Mr. Burns has walked from May 7, 1915 to July 15, 1916, his travels have included 11,452 miles covering Lincoln Highway from San Francisco to New York in 80 days averaging 42 miles per walking day.

He covered Southern Highway from New York to Washington, D. C., Raleigh, N. C., New Orleans, El Paso, and Los Angeles in 85 days averaging 43 1/2 miles per walking day.

On Wednesday morning, July 27, Mr. Burns left Rock Island for St. Louis over the Galesburg division of the Burlington Trail and it is quite probable that he will continue from St. Louis south to New Orleans over the proposed extension of the Burlington Way.

From Joy Prairie to Jacksonville the intersections have been re-painted and new corner signs put up. L. R. Craig and a party of boosters visited the Murrayville picnic and later in the day drove as far as Carrollton. White Hall and Roodhouse will each send bands and together the towns will send a delegation of 250. Manchester has promised 50 boosters and Carrollton promises to send up a delegation of 50 visitors.

The Boy Scouts will hold a meeting tonight in the grove near T. P. Carter's residence on Lincoln avenue. Talks will be made by Carl H. Weber and Mr. Burns, who uses neither liquor nor tobacco and has always taken interest in Boy Scout work.

MURRAYVILLE VISITORS

Among Jacksonville people who were in Murrayville Wednesday attending the picnic were Miss Ella Dwyer, Mrs. T. C. Dwyer, Mr. and Mrs. Edward Lonergan, Charles, Austin, Louis and Aileen Lonergan, Misses Adele, Gertrude and Irma Kepler, J. H. Dial and family, James Sloan, Frances Sloan, John Shields, Clement Leary, Miss Lucile Harmon, Miss Zula Groves, Miss Esther Carlso, Miss Margaret Burns, Miss Ethel Pauk, Miss Agnes Teefey, Frank Sullivan, John Davis, Al Baldwin, Russell Tribble, Michael O'Brien, Charles Hughett, Walter and George Sullivan, Joe Donnelly and Misses Anna Hagerty, Alice Hogan, Della Sweeney, Florence Hagerty, Margaret Burkery, Marie Maroney, and Anna Ryan.

CUT WITH CORN KNIFE.

Elmer Middendorf, son of Mr. and Mrs. John Middendorf, southwest of the city, received a bad cut in his hand Wednesday evening. He was in the field with a corn cutter and getting too near was hit by the blade severing the tendons and making an ugly wound. The boy was taken to the office of Dr. Allen M. King and several stitches were taken.

ANDREW J. BEERUP OF FRANKLIN IS CALLED BY SUDDEN DEATH

Attack of Asthma Followed by Death at 11:40 O'Clock Wednesday Evening—Had Worked Hard all Day.

Andrew J. Beerup passed away at his home in Franklin at 11:40 o'clock Wednesday night. He was taken ill a short time after retiring and death ensued after an illness of half an hour. Dr. J. B. Perkins was the attending physician.

Mr. Beerup observed his 59th birthday the second of last March and was numbered among Franklin's citizens of standing and integrity. He conducted a barber shop and was skilled also in the trades of painter and paperhanger. He had worked hard all day and on coming from his barber shop at night retired in apparent good health. Mr. Beerup was a member of Franklin M. E. church and was a man of upright character and consistent industry.

Surviving Mr. Beerup are his widow, two brothers Charles Beerup of Franklin and D. H. Beerup of Alexander; one sister, Mrs. Anna Austin of Franklin, and eleven children, Charles, Edgar Beerup, Franklin; Mae, wife of Roy Hillas, and Eva, wife of Henry Van Houten, Jacksonville; Mrs. Dean Tucker, Franklin; Mrs. Earl Statts, White Hall; William Beerup, Fred and George Beerup, Alberta, Lillian and Erla Beerup, at home.

Funeral announcements will be made later.

SEEK POSTMORTEM FOR FRANK CLERIHAN

Relatives of Frank Clerihan, who was drowned in the bay above Meredosia ten days since, appeared before the county board Wednesday to ask that a postmortem be authorized. Mrs. Jennie Clerihan, mother of the deceased, William Clerihan, a brother, and J. G. Reynolds, deputy coroner, made the request. The circumstances surrounding Mr. Clerihan's death have never been made clear and it is based upon the statements of several of the men who had been with the deceased a short time before his disappearance that the post mortem is asked. The relatives have all along maintained that there was something unexplained about Clerihan's death and that he did not seek death in the river.

Members of the board, after hearing the statements, felt inclined to authorize the post mortem and at the suggestion of the relatives will confer with Dr. F. A. Norris about the matter.

Restores Gray Hair Without Dye

Vita, the New Scientific Discovery, Restores Vitality of Color-Glands and Hair Roots.

The way to restore gray, faded, bleached hair to its original color, without dye or stain, has been discovered. It is an accomplished fact. The discovery has been made that consists of five principal substances, and that when any one or more of these is missing the hair-

Who would ever think it? Vita brings back original hair color without tinting or dyeing the hair!

Color-glands lose their vitality, the hair falls out, turns gray, dandruff and baldness follow. The new hair discovery, Vita, restores these missing substances in a remarkable way. The hair is quickly seen—the hair grows stops falling, hair grows on bald spots for many years, bald hair falls out, hair grows luxuriantly, dandruff disappears completely. And another remarkable thing occurs—whether your hair is originally red, black or brown, will restore that exact shade to your hair, no matter how gray, faded or bleached it may now be, nothing never before accomplished. Vita-Vita is not a dye or stain. It is a hair re-vitalizer. A modern cause of hair troubles is alcohol in hair tonics. Alcohol leads up hair secretions and shortens its life. Vita-Vita contains no alcohol. Vita-Vita will solve your hair and scalp troubles surely, completely, quickly. Satisfaction guaranteed.

"Vita-Vita" is sold at all drug stores and 50c bottles, or sent direct by Vita-Vita Mfg. Co., Chicago, Ill. The 50c bottle contains 2 1/2 times as much as the 25c size.

OLD JACKSONVILLE

Very-Massey

By Ensley Moore.

Member Illinois State Historical Society.

One of the very earliest settlers of Morgan county was William C. Very, for he came here in the spring of 1823. That was the time the county was organized.

Mr. Very was born in Boston, Mass., May 30, 1795. His father, William, "was identified with the country during the Revolutionary struggle."

William married Mercy Wiswell, probably a sister of Thomas Wiswell, father of Henry C. Wiswell, now of Rochester, Mo. Thomas Wiswell lived on the St. Louis road, straight east of Mr. W. C. Very. William and Mercy had six children, one son and five daughters, all of whom grew to maturity.

W. C. Very was named for his grandfather, Wm. Coddington, of Rhode Island. Mr. Very was married to Lucinda Horton, of Norton, Mass., when he was twenty-two years of age, and they were the parents of eight children. He soon emigrated to Illinois, arriving in 1822, and spending that winter in Bond county; coming here the next Spring. He took up the land, about two miles south of where Jacksonville now is, which was his home for the rest of his days. Mrs. Very died in August, 1831. Mr. Very afterwards married Mrs. Lydia W. Holmes, daughter of Silas Massey, here. Mrs. Holmes had three daughters by her first husband. One married the Rev. J. A. T. Dixon, a graduate of Illinois College, and another married the Hon. Wm. Strawn, son of the great farmer, Jacob Strawn.

Mr. Very built a fine house for the day, and pursued the life of a farmer. He and his wife were good people, and highly respected. She, if not he, also, was a member of the First Presbyterian church of Jacksonville. They were parents of three children, their daughter becoming the wife of Milton Sibert, and the Siberts succeeded to the Very homestead. Mr. Sibert was a Union soldier. Both Mr. and Mrs. Sibert passed on leaving a son and three daughters.

The son, Walter served in the Spanish War. One daughter, Harriet is a teacher. The others married W. W. Carter and J. T. Kershaw, respectively. Mr. and Mrs. Very died about forty years ago.

They had an adopted son who became a Union soldier, John Butcher was his name. Mr. Very's son Oliver also served three years in defense of the Union.

Silas Massey. Silas Massey, who was generally known in his later years as "Father" Massey, was born in Salem, N. H., April 1, 1786. At the age of two years, his parents took him to Windsor county, Vermont, where he was married in 1807, to Fanny, daughter of Stephen Farnsworth. Mr. and Mrs. Massey were the parents of Mrs. Lydia W. Very, H. H., and S. S. Massey, who lived here. There was also another son.

Silas Massey removed, in 1810, to St. Lawrence county, New York, and at the breaking out of the War of 1812, he, as a captain of militia took part mostly on the frontier, being stationed for one winter at French's Mills, on the Canadian border. He impaired his health, after the War, trying to clear his farm, and went into stock dealing, in which he was quite successful for those days. He hardly got his pile before a man cheated him out of it, so in 1820, he started for the far West. He took a fatboat on Olean Point, N. Y., and after floating down the Allegheny

and Ohio rivers; and going up the Mississippi, for fourteen weeks, he reached St. Charles, Mo., where he settled that Fall. He remained there until 1826, when he removed to Galena, Ill., taking his family there a year later. He then moved, in the Fall of 1829 to land he had purchased two miles southwest of Jacksonville, where he lived to the last. He had a farm of 644 acres there. He died January 2, 1874, Mrs. Massey having preceded him August 7, 1872. They had lived together in Vermont, New York, Missouri, Wisconsin and Illinois. They had three married children, and thirty four great grand children.

Politically, the Masseys were Republicans, and Mr. Massey was as stalwart in that way as he was physically, which is saying a good deal.

Horatio H. Massey.

H. H. Massey, first son of Silas, was born in St. Lawrence county, N. Y., Oct. 17, 1811. He came west, and finally to Jacksonville, with his father, in 1829, so they saw the Deep Snow.

H. H. was married April 17, 1834, to Miss Margaret Officers, whose parents came here from East Tennessee. The Masseys were parents of Fanny, wife of Henry W. Very; Laura L., wife of G. W. Breen; William S.; Lydia M., wife of Major C. C. Cox, of Paola, Kan.; Mary E., wife of William Sibert, and Horatio Hart, Jr.

Frederick W. Sibert, the well known real estate man, is a son of William and Mary Sibert.

Mr. H. H. Massey Sr., lived down in the valley on the east side of what is called "Lovers Lane" on the west side of Diamond Grove. H. Hart Jr., who married Jennie Hunt of Du Page county, Illinois, now lives at the old home of his grandfather, Silas, a little further south on the west side of the lane. He has conducted a horsemock farm for years, breeding valuable animals.

Stephen S. Massey.

S. S. Massey was born in St. Lawrence county, N. Y., Feb. 18, 1814, coming here with his parents in 1829. Mr. Massey was married here, October 14, 1840, to Miss Levia A. Bement. She was born in Bradford, Vt., May 10, 1817, being the daughter of Samuel and Lucy (Barnes) Bement, natives of Vermont and New Hampshire, respectively. Mrs. Massey had a brother who became a large manufacturer in Philadelphia, Pa. Mrs. Massey came west, with some relatives, when about twenty years of age, travelling by team to Michigan. Two years later she came here, was married, and settled on the farm. This home was on the south side of the Mound road, just west of "Lovers Lane."

The Masseys were parents of Maria L., wife of Edward Ayers, of Emporia, Kan.; Henry H., who married Miss Mary Barber, and went to Los Angeles, Cal.; George W., who married Miss Mary De Haven, of a prominent family in Beardsden, and in Philadelphia, Pa.; Anna Frances, wife of Mr. Jefferson Kitcher, a prominent farmer near here; Clara E., who married R. D. Moffett, of Chicago, and Silas. The latter had the home place for a time, but later went to California.

Henry H. Massey served in the Union army. George F., son of George W., is now holding a fine editorial position in Kansas City, Mo., and Clarence B., is a business man of Jacksonville.

ROCKEFELLER WANTS HIS TAXES REDUCED

"Richest Citizen" Objects to Increased Assessment on Pocantico Hills Estate.

New York, Aug. 9.—If it were not for the persistence of tax collectors, life for John D. Rockefeller would come considerably nearer to being a dream of eternal bliss. As it is, the tax men seem determined to dig the Rockefeller coffers and take out such gobs of money as would relieve Mr. Rockefeller considerably of the burden of looking after his wealth. The "richest man in America," however, seems to have no desire to be relieved in such a manner. That is why he, or his legal representative, is going to appear before the board of assessors at Tarrytown tomorrow to protest against the increased assessment on his Pocantico Hills estate.

The Standard Oil magnate admits that he has a very "comfy" little home within the bailiwick of the Tarrytown tax collector but he is not ready to confess that it is worth anything like the value placed upon it by the assessor. Three quarters of a million dollars would be a fair valuation, in his opinion, and he might be willing to boost it a few notches higher in order to avoid any controversy over the matter. But when the assessor places the valuation at \$1,324,300, an increase of nearly half a million dollars over last year, Mr. Rockefeller thinks it is time to utter a vigorous protest.

And when protests are unavailing in such matters, Mr. Rockefeller has the habit of invoking the law in an effort to prevent the collection of what he declares to be exorbitant taxes. Last October he obtained an injunction in the United States District Court in Cleveland preventing the enforcement of tax collections on his Cuyahoga county holdings, which the authorities there rated at more than three hundred million dollars. Cuyahoga county filed an appeal against the injunction in the United States Circuit Court and has since been busily at work endeavoring to obtain evidence to prove that Mr. Rockefeller is a legal resident of Cleveland.

It is rumored that the legal representatives of Cuyahoga county are preparing to spring a surprise when when the case comes up for hearing in the circuit court this fall. In their possession, so it is said, is a duplicate of a balance sheet compiled on the occasion of Mr. Rockefeller's seventy-seventh birthday, on July 9 last, which is alleged to show that his private fortune, exclusive of endowment funds and other benefactions, exceeds a billion dollars, which means that Mr. Rockefeller's wealth exceeds that of any other man in the world, and, indeed, in the history of the world.

Of the enormous total nearly \$500,000,000 is said to represent Mr. Rockefeller's holdings in the various Standard Oil companies and their subsidiaries. He holds approximately 247,962 shares out of a total of 883,383 shares, issued in all the companies. The stock is now quoted around \$1,700, about three times what it was before the Federal courts issued an order dissolving the great corporation into independent companies.

The remainder of Mr. Rockefeller's fortune, it is understood, is shown to be in enormous holdings in various railway and banking corporations, the United States Steel Corporation, and in national, municipal, state and in foreign bond issues. Among his holdings, it is recorded, there are \$10,000,000 of Anglo-French war bonds, floated in this country last year by the Allied Commission.

Cuyahoga county intends to fight and fight hard to establish as a legal fact that Cleveland is the bona fide home of Mr. Rockefeller and that the bulk of his enormous wealth is subject to taxation there. If the authorities succeed in the fight—well, then Cuyahoga will be able to lift the indebtedness off its new \$5,000,000 courthouse and buy a few blocks of the surrounding land for a park.

WARNING!

All candidates and others are hereby notified that the posting of any signs or posters on telephone, telegraph or electric light poles in the city is a violation of the city ordinances, and that all violations will be punished.

WILL CONDUCT WIDESPREAD FIRE PREVENTION CAMPAIGN

State Survey Will Be Continued in Effort to Reduce Fire Losses.

Springfield, Ill., Aug. 9.—With the first half of a systematic survey of fire hazard conditions in Illinois, undertaken by State Fire Marshal Walter H. Bennett and his assistants, brought to a close, plans are being laid for a thorough campaign of fire prevention education that will complete a year's work along these lines.

The idea of a state wide survey of fire conditions under the direction of the state's fire marshal originated in the office of Fire Marshal Bennett, and as far as the records disclose is the first such plan executed in the United States.

The plan of the survey, which started at the beginning of the present year, was to send into every city experts in the matter of preventing fires, men who would know a hazard when they saw one. They planned parades which included fire engines, police departments, school children and any other units that would make a parade interesting and would focus attention on the main point—fire prevention.

Lectures were given in schools. Public buildings, business buildings and institutions of all kinds were visited and inspected, and reports of the conditions of these places with reference to their ability to withstand fires, were made. With the help of the fire department each town was thoroughly inspected, and every nook and corner where inflammable material might lodge was overhauled.

The reports made by the fire marshal's experts led in many instances, to the eradication of hazardous conditions previously overlooked.

When the campaign was started, Mr. Bennett was of the opinion that it would be a reasonable undertaking to cover 50 cities and towns during 1916. At the close of the first half of the undertaking, June 30, twenty-eight towns and cities had actually been inspected.

Better protection of life and property in public buildings, such as opera houses, motion picture theatres, public schools, churches, and in fact every kind of building where people assemble in large numbers, soon resulted in the towns where the survey was made.

On the eve of the resumption of the campaign to round out the year 1916 many requests for surveys are being received by the fire marshal's office from all over the state. The entire state, seems to have caught the idea, and cities are intelligently cooperating to obtain the expert assistance which the trained workers of the state office can give.

The towns and cities already are: Pontiac, Marion, Robinson, Law-

renceville, Mt. Carmel, Carmi, Edwardsville, Collinsville, Chicago Heights, White Hall, Carrollton, Jerseyville, Springfield, East St. Louis, Greenville, Shelbyville, Highland, Sterling, Rock Falls, Dixon, Galena, Mt. Carmel, Savanna, Rock Island, Moline, East Moline, Silvis and Carterville.

FORMER MEREDOSIA RESIDENT DIES IN CALIFORNIA

John Pike Passes Away at Home of Brother in Los Angeles—Lutheran Church Picnic.

Meredosia, Ill., August 8, 1916
—Miss Alma Neville returned Saturday to her home in Quincy after visiting relatives here for two weeks. She was accompanied home by Miss Stella Pond.

Mrs. Jane Waldo has received word from Bert Pike, of Chanute, Kansas, stating that his father, John Pike, had passed away July 29th at the home of his brother Bert, at Los Angeles, Cal., and was buried in that city. He had been sick but a short time, his death being due to acute indigestion. Mr. Pike was a former resident of this city, having been connected with Charles Geener in the grain business here some twenty-three years ago, and was well and favorably known here.

Mr. Burrus to Perry
It is with deep regret by many of the board that G. M. Burrus of Bluffs, cannot accept the position of principalship of the school offered him by the board some few weeks ago. Mr. Burrus had in part accepted the same position at Perry and they refuse to accept his resignation consequently Meredosia schools are without a principal up to this time.

James Brockhouse and family departed Monday overland in their car for Peculiar, Mo., for a visit of several days.

Will Sammers visited his wife at Our Saviors hospital in Jacksonville, Monday.

Edward Gaddis and family left Sunday evening for Springfield, where they expect to reside. Mr. Gaddis has secured employment in the carpenter work in the above city.

The United Mercantile Co. have had on display in their window for some time an immense sack of Aristos flour, its weight to be guessed on by those purchasing a small sack of the flour. A great deal of interest has been taken in the guessing contest and on last Saturday a disinterested committee composed of Steve Allen, Henry Buescher and George Unland weighed the sack and found that it weighed 292½ pounds and discovered that G. M. Steinberg had guessed the exact weight.

Over two hundred from here attended the excursion Friday to the Havana chautauqua on the steamer Columbia. The Meredosia Concert band played throughout the day and on the return trip gave a concert which added much to the pleasure of the day. The day was seemingly an enjoyable one to all aboard the boat.

Misses Gladys and Beryl Galaway departed Monday for an extended visit with relatives at Decatur and Weldon.

Like an Open Book For Young Mothers!

Most women look upon becoming a mother, for the first time, as something full of unknown mysteries; a agony and pain; a time of distressing days and months. These are misguided conclusions. "Mother's Friend" used daily before confinement, will prove its great value as an ally to those distressing pains and assist nature in doing its work with ease and comfort. Get "Mother's Friend" at your druggist.

The young mother should become acquainted with the information contained in a book on Motherhood that will be mailed free to all who write, Address

DR. HOPKINS TELLS MACON COUNTY FARMERS ABOUT SOIL

University Authority Gives Data of General Interest to Illinois Agriculturists.

Dr. Hopkins' lecture at Havana on "What Macon County Farmers Must Do To Build Up Their Soil," was greatly appreciated and after the close of the lecture an invitation was extended to those who wished to ask questions in regard to soil fertility work to move down in front. Several hundred accepted the invitation and many questions in regard to the use of lime, phosphate and different crops for our different soils were asked and Dr. Hopkins was busy for quite a long time which showed that Macon county farmers had absolute faith in what he had told them and wanted to learn more in regard to building up their lands.

In his lecture he stated that the soils in Macon county could be divided into the following general classes: sandy soils, swamp or muck land soils, and brown silt and clay loam soils. That the sandy soils were deficient in nitrogen and organic matter, the swamp lands were deficient in potassium and the brown silt and clay loam soils in phosphorus.

Dr. Hopkins stated that in order to permanently improve our sandy soils it would be necessary not to apply nitrogen but to secure it from the inexhaustible supply in the air by growing legume crops. Legume crops have the power by the aid of minute bacteria which live on their roots, to take the nitrogen from the air and deposit it in an available form. Thus by growing and plowing under legume crops such as alfalfa, sweet clover, clover, cow-peas, and soy beans or vetch we are not only adding a supply of nitrogen, but a large amount of organic matter.

To grow successful crops of these legumes, however, it is necessary to apply liberal applications of limestone to sweeten our soils as legume crops not only feed heavily on the element calcium, but our soils must be sweet in order that the bacteria may live. Bacteria will not live in acid soil.

Dr. Hopkins further stated that 3-10 of our sandy soils in Macon county are acid and for best results we should use 5 to 8 tons of limestone per acre.

Also that sweet clover was one of the best crops we could grow on our sandy lands to plow under for organic matter. A 5 ton crop of sweet clover will add as much nitrogen and as much organic matter as 20 tons of manure, and that by applying plenty of lime and inoculation we should be able to grow good, sweet clover on our sandy soils.

Swamp Soils
Dr. Hopkins stated that chemical analysis showed that our swamp soil runs as high as 3500 or more lbs. of Nitrogen per acre while many of our sandy soils showed less than 1000 lbs. That our swamp soils were also well supplied with phosphorus but were quite deficient in potassium. That since the European war it was impossible to purchase potassium at any price and that the only practical method of maintaining the potassium in our swamp soils was by the return to our soils of all crop residues such as stalks, straw, stubble, etc., and by the addition of manure. That each ton of manure contained 8 lbs. of potassium and that he was of the opinion that it would pay farmers on swamp lands to buy feeders and feed to get manure to keep up the supply of potassium in this soil.

Brown Silt
In speaking of our Brown Silt and Clay loam soils in Macon county Dr. Hopkins stated that as a rule they had an abundance of potassium, were fairly well supplied with nitrogen, but were deficient in phosphorus and in order to get best results on these lands we should follow rotation of crops in which some legume crop is grown and then apply rock phosphate during each rotation. Dr. Hopkins stated that in 1914 on the Urbana experiment fields on soils similar to those in Macon county where crop residues and clover had been plowed under they harvested 18 bu. of wheat per acre but on adjoining plot where phosphorus had been applied in addition they vested 22 bu. and where lime and phosphorus was added, 38 bu., and that under a livestock system farming they had increased the yield of wheat from 18 bu. where residues had been plowed under to 47.6 bu.; where residues, lime, phosphorus, manure had been applied they increased the yield of wheat in 1915 from 26.3 bu. in plot where residues and clover had been plowed under to 52.7 bu. on the plot where residues, manure, clover, lime and phosphorus had been applied. In all the experiments on the different experiment plots on the brown silt soil.

WOMEN VOTE IN NEVADA PRIMARIES
Carson City, Nev., Aug. 8.—Nevada's new primary law was tried out for the first time today, the voters of all parties balloting for delegates to their respective State conventions. The results are awaited with intense interest, since the primary marks the beginning of what promises to be one of the most notable political campaigns in the history of the State. The big prize to be fought for in the November election will be the United States senatorship now held by Key Pittman. Senator Pittman is a candidate for renomination on the Democratic ticket. He is not without opposition in his own party, however, and his chances of returning to Washington are further imperiled by a united Republican party which is planning to put up a hard fight to encompass his defeat. Other factors that will add to the interest and uncertainty of the coming election will be the vote of the women, who are to exercise their ballot rights for the first time in Nevada, and the increasing strength of the Socialist party.

CONFERENCE OF BANKERS-FARMERS
Memphis, Tenn., Aug. 8.—A closer co-operation of bankers and farmers in the work of promoting and making more profitable the agricultural industry in the South is the big subject under consideration at the second annual Bankers-Farmers conference which convened in this city today. The opening of the conference was attended by many leading bankers of Mississippi, Arkansas, Alabama and Tennessee.

in the state, phosphorus has given good returns and as a rule, phosphorus treated land has yielded as much as 3 acres of untreated land or the common results obtained from the use of phosphate on our Prairie Corn belt soils in \$2 returns for every \$1 invested.

In conclusion Dr. Hopkins stated that our sandy lands could be made to produce as well as our average untreated corn belt soil by practicing a short rotation in which some legume is plowed under, but in order to get a heavy growth of legume crops it will be necessary to apply to our soils heavy applications of limestone.

Also to plow under all stalks, straw, stubble, etc., as in burning them practically all is lost. One ton of corn stalks is equal in value to one and one-half tons of manure and when plowed under lasts longer in the soil as they decay more slowly. On Brown Silt soil apply lime and phosphorus in connection with a good crop rotation if one expects to raise 50 bu. wheat and 100 bu. corn crops.

FROM THE EDUCATOR'S NOTEBOOK.

In order that specially gifted children in the public schools may be given additional attention, as well as those who are defective, Professor Gay M. Whipple of the University of Illinois, under the direction of the General Board of Education is making an exhaustive study of the subject and soon will publish the results of his investigations. While much attention has been given to defective children, little or no study has been devoted, according to the General Board of Education, to furnishing additional facilities to children who are gifted mentally much above their classmates.

The University of Chicago has announced a course in military science to begin with the opening of the autumn quarter next October. The course will be given in the Colleges of Arts, Literature and Science, and will be elective. Plans for the work comprise infantry drill under the direction of a member of the University Faculty, organization of such instruction as may be advantageous for various forms of military service, and the addition of an officer detailed by the War Department. This plan was recommended by the faculty of the colleges on petition of upward of 500 students.

Manila is to have a conservatory of music as a part of the University of the Philippines. Provision for this development, backed by the Philippine assembly, is now being made by the government.

This news will be of interest to all Americans who have ever heard some of the wonderful music made by the little brown men which Uncle Sam now includes among his children, and which is destined to take a notable place in American musical development. The Filipinos are celebrated as the musicians of Asia. Their aptitude for music is surpassed by no people on the globe. Every village has its band, and some of the small towns muster several musical organizations. Even the poorest among the peasantry and fisherfolk possess musical instruments and play them with a facility and charm which is little short of astounding to globe trotters. There were musical instruments and expert musicians in the Philippines long before the Spanish conquest in the 16th century.

The Spanish travelers and chroniclers of the time have left interesting accounts of Filipino concerts of that time.

In promoting more cordial relations between secondary schools and the college, Dartmouth College has inaugurated a new method of selecting the schools which may admit pupils on certificates. In order to increase the efficiency of this scheme the president of the college has invited to an informal conference, August 8-12, the secondary school principals and superintendents of Maine, New Hampshire, Vermont and Massachusetts. By bringing these men together in the northern New England states who are on the college's approved list, it is felt that a more definite idea will be formed of the type of college Dartmouth aspires to be and of the type of boy it will best suit.

The thirtieth anniversary of the Michigan College of Mines will be observed this week by a reunion at Houghton, which will be attended by men become nationally famous in the United States and Canada, and former pupils of the institution.

WOODSON

Miss Marguerite Steinmetz returned home last week from a six week pleasant visit with relatives in Kansas.

Remember the chicken fry and burgoo soup supper to be given by the Ladies' Aid of the Presbyterian church on the church lawn on Thursday this week.

Miss Ruth Hutches of Chapin was a Sunday guest at the Gallagher home.

Miss Grace McHorter who has been a patient at Passavant hospital the past three weeks is reported improving in a gratifying manner.

Mrs. Ed. Ruyle and son Roy of White Hall were Sunday visitors with Mr. and Mrs. T. M. Whitlock.

Miss Mabel McCurley and friend Vertrees Blimling spent Sunday with the latter's sister, Mrs. John Fitzsimmons and family near Markham.

Mrs. Wilbur Kitner and children who are here from Lamar, Mo., are visiting relatives in Jacksonville for a few days.

Miss Alta Kehl came out from Jacksonville Sunday to spend the day with her parents.

Miss Dorothy Westover of Jacksonville and Miss Lilla Jones of Springfield were Sunday guests of their uncle, Dr. R. R. Jones and family.

Master Bob Westover is enjoying a visit with his cousin, Paul Jones.

The Illini campfire club will serve ice cream on the lot just south of Fitzsimmons & Sons store room Saturday evening, Aug. 12.

Miss Marie Meggison and Miss Marguerite Steinmetz went to Jacksonville Monday morning to join a number of young ladies for a camping trip to Quiver Beach. They will occupy the "Dew Drop Inn." They expect to stay about a week.

Mrs. Hannah Hembrough and Son Clyde of Asbury neighborhood were Sunday afternoon guests of Mr. and Mrs. S. I. Baxter.

Miss Eva Baxter spent last week at Lake Matanzas.

Mrs. Ida Potter and daughter Miss Ruth left for their home in Van Wert, Ohio, Saturday night, and Mr. John L. Smith of Harrisonville, Mo., left for his home Sunday night. They were called here owing to the illness and death of their father, James Smith, whose death occurred July 29.

The Misses Corrinne and Ruth Shirley are enjoying a visit with their grandfather Henry Shirley at Hartsburg.

Mr. and Mrs. Joe Wood, Mr. and Mrs. Leonard Wood and Mrs. Bernice Poe, all of Modesto, called on Woodson friends Sunday.

It is always pleasant for us to meet our friends especially our intimate friends, and renew our pleasant associations, and memory of the past. We were pleased to have with us Elder C. D. Hougham and his good wife and daughter, Miss Lucile on last Saturday and Sunday. They were accompanied by their friend Miss Ruth Hutches of Chapin. They attended Divine services at the Christian Church morning and evening, Bro. Hougham filling the pulpit in the evening. His subject was "Why Be A Christian," taking for his text the expression of Agrippa, "Almost Thou Persuadest me to be a Christian," from which he built a splendid discourse, edifying his audience in a clever exposition of his theme and demonstrating that to win souls to Christ is the greatest grandest work of service in which anyone could engage. Several years ago Bro. Hougham held a very successful and happy revival for the Church at Woodson, Ill., and his return visits to us are always of the most pleasing character, as he has a host of admiring friends who are always glad to have him come among us, and regret to see him leave. The genial personality of Bro. Hougham and his estimable wife has made a lasting impression on the members of the Christian Church in Woodson. Come again. "The latch string is always on the outside" and a warm welcome will always be extended. The church at the evening service were delightfully entertained by a choice selection of classical music by Miss Hutches of Chapin. This was an unexpected treat and the congregation enjoyed it to the fullest extent as Miss Hutches is a graduate of the Conservatory of Music in Jacksonville and is one of the worthy teachers in Chapin. Altogether their visit with us was a most delightful and enjoyable one.

MERRITT
Mr. and Mrs. Warren Breeding and daughter, of Havana, were week end visitors in Merritt, the guest of W. L. Breeding and family. They were accompanied home by Miss Mary Frances Breeding who will be their guest for a week.

George Hardwick and wife were Sunday visitors in Peoria.

Warman Campbell and wife, Miss Ella Hawk and Richard Taylor, were shopping in Jacksonville, Saturday.

Miss Edna Taylor of St. Louis, is visiting her parents, Mr. and Mrs. Richard Taylor and family.

The ice cream social given by the Intermediate Sunday school class on Saturday evening was well patronized.

Miss Mary Barry was a caller in Jacksonville Saturday.

There will be a picture and vaudeville show on the vacant lot on the corner all this week.

Miss Fern Quinn of Winchester, is visiting home folks for several weeks.

Mr. and Mrs. W. S. Howell returned to their home in Bryan, Texas, after a visit at the home of Mrs.

THOUSANDS ATTEND
MURRAYVILLE PICNIC

SEVERAL HUNDRED FROM JACKSONVILLE ATTEND.

Horse Show and Athletic Events Held—Several Hundred Gallons of Soup Are Served—More Than 1100 Served at Dinner—Ball Game Results in Victory for Murrayville Ramblers.

More than three thousand people attended the Catholic picnic at Murrayville yesterday. The day was ideal for the event and there were hundreds of visitors from all towns in this vicinity. Several hundred went to Murrayville from here by train and many made the trip in automobiles.

A committee composed of Michael Riley, Michael Robinson and Con Lonergan had charge of the entire program. These men had capable assistants and the horse show and athletic events were run off in such an able manner that all were finished shortly after six o'clock. Seven hundred gallons of soup made by Isaac Watson, the famous soup maker were served during the day. In addition there were 480 spring chickens served at the dinner and supper. Over 1100 persons were served at dinner and fully that number at supper.

Music was furnished by the Merritt band during the day and in the evening. This was interspersed with events and with the addition of a merry go round the crowd was kept well entertained.

The only thing to mar the day's pleasure was an accident which occurred about 12:45 o'clock when an automobile driven by George Story ran into the buggy of Everett Pennell. The car struck the rear wheel of the buggy demolishing it. Fortunately no one was injured.

Morning Events.

Tallest man on the ground—A. A. Dinwiddie, Murrayville.
Man with the biggest feet on the ground—A. A. Dinwiddie.

Potato race—White, Murrayville, first; Elton Manchester second.

Tug of war—Morgan vs. Scott county. The Scott county team generously divided the box of cigars which was the prize with their opponents and the judges.

The Ball Game

The baseball game between Jacksonville and Murrayville was expected to be the big event of the day but was a disappointment. Jacksonville was away off form while Murrayville showed at her best. The final score was 9 to 3 in favor of Murrayville. Jacksonville did not score a run until the ninth inning and John Wright who pitched for Murrayville deserved a shut out. He seemed to weaken in the ninth and Jacksonville got to him for three singles which with a stolen base and a wild pitch put three runs over the pan.

Wright in addition to having the Jacksonville team fooled with his benders fielded his position in great form. He had five chances most of them difficult and figured in a fast double play. He received magnificent support from his team mates. Young and Short did phenomenal work and grabbed a line drive of McCollister's bat in the third with his bare hand that was a pretty piece of work. Lancaster in center took a line drive from DeFrates' bat that was ticketer for at least a triple and possibly a home run, while Fan-

ning took a drive off his shoe strings from the bat of Wheeler in the second while going at full speed.

In contrast to this brilliant work the Jacksonville team tried to see how badly it could play. The errors of omission were almost as costly as the errors of commission. Sloan pitched a fair game had he been given any kind of support.

He was touched for thirteen safeties of which five were for extra bases. At least three of these could have been held to singles but for the loafing on the part of his support. DeFrates had an off day at third getting three boots, most of them costly.

How the Runs Were Made

Murrayville broke the ice in the first inning when a base on balls, a stolen base and a double put over one run. In the second Murrayville batted clear around, a batter hit, an error, a fielders choice, a stolen base and two doubles putting five runs over.

A double by Donohoo and a single by Ruble gave them one run in the fourth. Two doubles gave them another in the fifth. Their last run came in the eighth on a single, a fielders choice and a muffed fly.

Singles by Clark, Christopher and Denny and a stolen base and a wild pitch put over three runs for Jacksonville in the ninth. The score:

MEMORIES OF LONG AGO

Edwin White of the Old People's Home on Grove street gives the Journal some interesting reminiscences of long ago. He says:

In June, 1846, when a boy of fifteen years, I first visited Chicago when it was an insignificant place. All the buildings were of wood, mostly pine and cheaply constructed and the place was then some ten to twenty feet lower than at present.

There were no street pavements and only a small portion of the business district had board sidewalks. Several places in the streets had old fashioned sloughs or deep mudholes. In them and it was necessary to stick up a small post in the middle of them with the warning, "Don't drive here."

How they managed at night is a question. The population in 1840 was 4,000; 1846 about 12,000; in 1850, 29,000. There were no railroads or telegraphs when I was there in 1846.

The old gentleman might have added that David Davis, later a prominent member of the bar and bench, when a young attorney, took some lots in Chicago on a collection for some eastern clients and they found so much fault with him that he took the property off their hands. It was located near the site of the North side water works and the owner died worth four millions.

ANOTHER SPRINGFIELD ELECTION.

As a result of the Springfield Utilities Company action an election will be held in the capital city to get an expression from the people on their wishes as to the purchase of a new generator. The council recently voted unanimously to purchase a generator at a cost of \$25,000. In order to have reserve power and for the further purpose of having current to sell commercially. It is for the latter reason that the utility company has circulated petitions asking for a referendum vote on the proposition.

"TENT CITY" WILL BE STATE FAIR FEATURE THIS YEAR

Grove Adjoining Grounds Secured For Those Who Wish to Camp During Fair.

Now comes the Illinois State Fair management with the announcement of a "Tent City" in connection with the State Fair of 1916, which opens September 15th and closes September 23rd.

The W. O. Converse grove located just west of the fair grounds and across the Eighth Street road, has been leased by the Fair Board and converted into a camp ground where families can come and rent a tent and complete camping outfit for a nominal sum and enjoy visiting the State Fair and an outing at the same time. An entrance to the Fair Grounds has been established leading from about the center of the new swine building across the street direct to the northeast entrance to "Tent City," affording the campers an excellent and close entrance to the Fair, where they can visit the fair, as covered walks are provided between all buildings.

This "Tent City" consists of forty acres of natural forest with enough slope to afford excellent drainage. The Fair Board have platted it in streets and lots, with electric lights, city water and ample police protection. Mail addressed to the campers, care of State Fair, "Tent City," will be delivered daily.

A tent and dining company will be located on the camp grounds for the purpose of supplying the wants of the people desiring tents or equipment, and have agreed to furnish first class tents and equipment for outdoor life, for a rental fee during the entire fair.

All inquiries addressed to the Secretary of the Board of Agriculture will have prompt attention.

GUESTS OF MR. HOOD

Mrs. J. A. Hood, daughter and sons and several other members of the Hood family, came to Jacksonville Wednesday from Monmouth to make a brief visit with Mrs. Hood's son, A. L. Hood, at the Peacock Inn. The party came in two automobiles and found the roads from Monmouth here in excellent condition. Mrs. Hood, who is 81 years of age stood the trip well. The travelers will return to Monmouth today.

MERRITT WINS FROM BLUFFS.

Merritt won a hard fought game from Bluffs Sunday at Winchester, the score being 5 to 1. The run Bluffs got was on a short passed ball which Matthews could gather in time to throw to Clark, who was waiting at home for the ball. Just as Matthews reached for the ball a fan grabbed it and threw it to the diamond, letting the runner on third score. That was the only time Bluffs had a chance. Clark's three bagger in the fifth inning started a great batting rally. Williams' two base hit in the same inning with the bases full featured the batting. Fielding honors were about even with each team turning some fast plays. This was the Merritt team's seventh straight game this season. They would be glad to hear from the Jacksonville Merchants.

C. J. LOWDEN CONSTANTLY AVOIDS CRITICIZING HIS RIVALS

Candidate for Republican Nomination Gets Cordial Welcome at Monmouth—Evening Meeting at Macomb.

Monmouth, Ill., Aug. 9.—Colonel Frank O. Lowden was met by a band and fifty automobiles here this afternoon when he arrived from Chicago he having interrupted his campaigning through the military tract in order to hear Mr. Hughes. Lewis McMullin headed the reception committee that escorted the gubernatorial candidate to the Colonial hotel, where he held a reception, meeting more than 100 leading Republicans of Warren and Mercer counties.

The meeting was held at 2:30 p. m. in the public square where he had a fine audience that was enthusiastic as he scored his points.

Monmouth, Mr. Lowden recalled, was the first town at which he stopped when he came into Illinois. He was introduced by L. H. Hanna, who sketched the colonel's life.

"Because," as Mr. Hanna remarked, "Colonel Lowden is too modest to talk about himself."

"The reason I don't talk about myself," said the colonel, "is because I don't like to. Thirty-five years of my life since I was a youth are an open book, with no secret pages. Neither am I going to say anything about my rivals for the nomination for governor—at any rate, nothing of criticism or opprobrium, for unless I can succeed in this contest without tearing down the good name of my opponents I would rather not be the victor. If I am going to win, I want to do so on my own merits, not on the demerits of my rivals."

From Monmouth, Colonel Lowden went to Macomb for an evening meeting.

OVERLAND TOURISTS:

Mr. and Mrs. S. L. Stroud of Pasadena, California, arrived in the city yesterday in their Ford car on their way home. They had been visiting various places of interest in Wisconsin, Indiana, Illinois and elsewhere and had traveled a long distance. Mr. Stroud said his front tires were the ones with which he left home. He had one blow out on a hind tire but generally was getting along all right. He and his wife sleep in their car when the weather is not too bad but do not try to cook on route. They both looked wonderfully well and expressed themselves much pleased with their traveling.

C. N. PRIEST GOES TO TRACTOR DEMONSTRATION AT FREMONT, NEB.

Ford's Model Will Be Exhibited There—Bids Soon To Be Received for Priest Garage.

C. N. Priest left Wednesday evening for Fremont, Neb., to be present at a tractor demonstration. This is the first tractor show in which the Ford tractor has been exhibited and it is understood that it will be the only one where the Ford machine is shown. As Mr. Priest expects to have Ford tractors for delivery to Morgan county farmers not later than March, 1917, he is embracing this opportunity to see the tractor at work and to learn first hand facts both as to construction and operation. He has not yet been advised as to the price at which the tractor will be sold but it is known that the figure will be considerably less than that asked for any other tractor on the market.

Immediately after his return from Nebraska which will be within a few days, Mr. Priest will ask for bids for the construction of a new garage that he is to erect on the lot just east of the high school building recently purchased from Prof. G. W. Brown. The plans for the building have been drawn by Mr. Hughes, a draftsman in the employ of the Illinois Steel Bridge company, and the building will cover the entire lot and will therefore be 80x160 in general dimensions. The entire building will have a concrete floor and the walls, roof and partitions will be of steel and brick construction. The building will be amply lighted and heated with a hot water system. Beside the general storage room there will be the show room and others fitted up especially for oil, gas and accessory departments. The office room will be ample in size and there will be a rest room for women with all conveniences.

JOHN W. SHEEHAN FOR REPRESENTATIVE

John W. Sheehan of Springfield visited the city yesterday calling on his friends in the interest of his candidacy for representative from the 45th district. Mr. Sheehan bases his claims on the fact that he was born and reared in Morgan County, and the democracy has no candidate for that office from this county. He says he will faithfully represent the county and district in all things if elected and in every way strive to secure the best legislation for all the people. He has no clique to serve and no enemies to punish or friends to reward but only a desire to be an upright, conscientious representative of the people whom he would represent and he asks the votes of the members of the Democratic party at the polls Sept. 13th.—Adv.

REV. MR. KNEELAND IN CITY.

Rev. Charles W. Kneeland of Louisville, Ky., was in the city Wednesday enroute to his old home in Griggsville, Pike county. Several years ago Mr. Kneeland was a student at Illinois college. From here he went to Mississippi where he preached for some time and now he is taking a theological course in Louisville, Ky., and is also preaching there. He is a brother of George Jackson Kneeland, who has become prominent as a social settlement worker.

MRS. ARTHUR L. FRENCH NEEDED FINAL SUMMONS WEDNESDAY

End of Her Devoted Life Came Last Night Following Long Illness—Funeral Arrangements Incomplete

After many months of illness Mrs. Arthur L. French passed away Wednesday night at 9 o'clock at the family home near Chapin. Mrs. French's health had been failing for the past two years. Since Christmas, 1915, she had been confined to her room and while succeeding weeks and months meant an unceasing struggle for life, her outlook upon the world was not darkened, and her courageous spirit endured until the last.

Mrs. French's maiden name was Ruth Bachelor Joy and she was the daughter of Lyman F. and Angelica Hazeltine Joy. She was born December 7, 1870, at the family home in the Joy Prairie neighborhood. As a young woman she became a student at the Jacksonville Female Academy and graduated from that institution in the spring of 1892. It was October 6th of the same year that she was married to Arthur L. French. The two young people had known each other almost from their childhood days and their marriage meant the complete union of two lives, holding ideals in common and placing like values on things worth while.

Mrs. French in her girlhood days was associated with the work of the Joy Prairie Congregational church and subsequent to her marriage, with Mr. French became identified with the M. P. church of Chapin. Altho Mrs. French's devotion to her home and family was especially marked, she found time for community interests and took an active part in all work for the upbuilding of neighborhood affairs. Her character was so admirable that outside the immediate circle of her relatives she was held in the closest ties of friendship by a great number of people. Not only those who knew her intimately but even those who had a more casual acquaintance could not but feel the strength of her character and her inherent womanly grace. It is given to some people to have a cordiality of manner which inspires friendship and begs confidence, and yet carry with them an individual dignity and Mrs. French was of that type. In her home and elsewhere these attractive characteristics were unceasingly hers.

Mrs. French is survived by her husband, Arthur L. French, two children, Arthur Joy French and Ruth Joy French; her aged father, Lyman F. Joy, one brother, Edward F. Joy, and two sisters, Mrs. A. C. Rice and Mrs. T. H. Pratt.

Altho it has been realized for months that the end of life was near for Mrs. French, there can never be preparation for the final day in the hearts of relatives and the sympathy of the entire community will go out to the family in this time of sorrow.

The announcement of the funeral will be made in a later issue.

H. A. FURRY TO LEAVE JOY PRAIRIE ELEVATOR

H. A. Furry, who is now manager of the Joy Prairie elevator, has presented his resignation to the directors to take effect as soon as they are able to find a successor. Mr. Furry resigned in order to become a manager for F. J. Blackburn, who is now doing a general contracting business. Mr. Furry's new work does not in any way change the relationship between Mr. Blackburn and A. E. Williamson. For four years Mr. Furry has been the manager of the Joy Prairie elevator and he has conducted the business in a very satisfactory way and has the well deserved reputation of being an unusually capable business man. Some of his systems in the conduct of the elevator have been introduced into other elevators, after an inspection of the Joy Prairie plant. Mr. Furry and his family will soon remove to this city and will make a desirable addition to the citizenship of Jacksonville.
